RECO STORAGE SYSTEMS PVT. LTD.

An ISO 9001:2008 Certified Company

Established in 2004, we, Reco Storage Systems Pvt. Ltd. (RSSPL) have been recognized as one of the leading manufacturers and suppliers of Storage Racks, Industrial Storage Solutions, Mezzanine Floors, M. S. Pallets etc. for its unmatched quality & services.

RSSPL is an ISO 9001:2008 certified organization. Our products are well known for its durability, high

storage capacities, easy installation and cost effectiveness. Our products are widely appreciated for their premium quality and are used in automobile, manufacturing, textile, pharmaceuticals agriculture, food, educational institutes, hotels and other industries.

It is due to the stringent quality measures adopted by us, the raw material is procured from the most

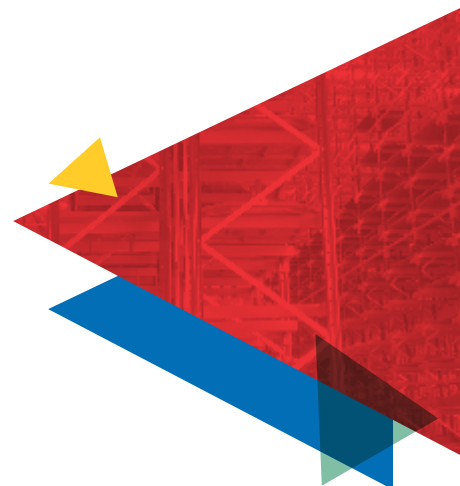

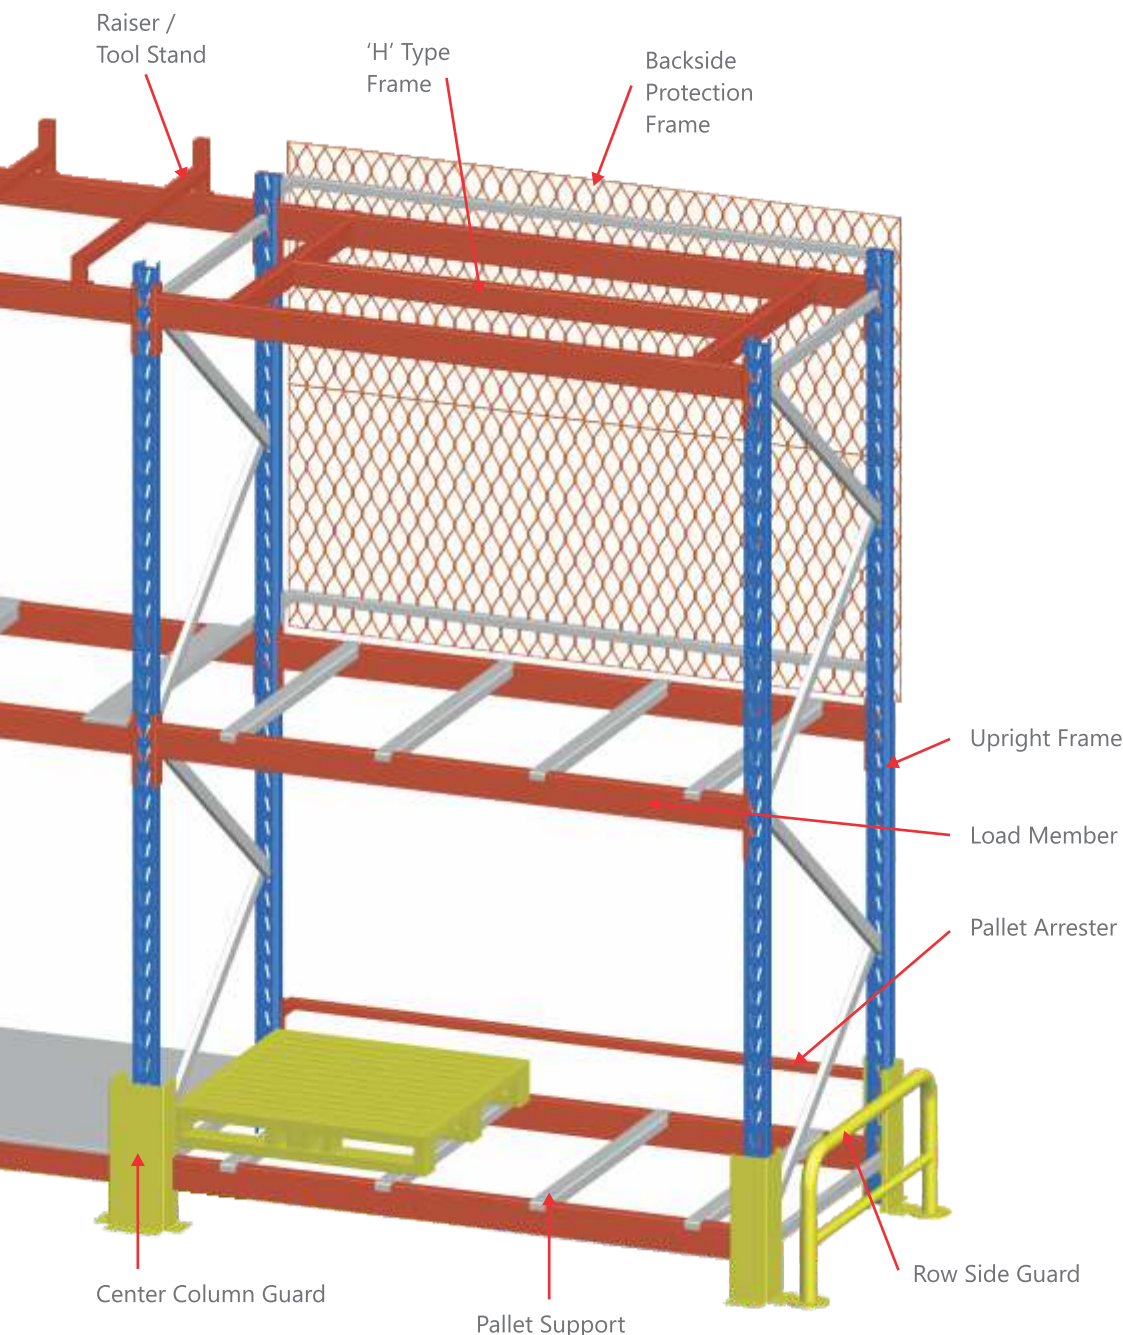

credible vendors. Not only this, all our products undergo a thorough series of tests starting from its manufacturing till its dispatch. Further, we have a highly committed and diligent team of professionals, which is constantly engaged in delivering the best range of products possible.

Our tag line ... '*Space Creators*' suggests highly efficient space utilization & providing products tailored to suit the need of each of our client & their storage facilities.

All this has been conceptualized with the due efforts of our mentor, *Mr. Rohit Watharkar*, whose persistent efforts and in-depth knowledge have positioned our company on the platform of success. His unwavering efforts and commitment to serve clients with the best has enabled us to gain a wide client base in India.

RSSPL has its manufacturing unit (Plant-1) in Jyotibanagar, Talawade, Pune, Maharashtra & a large manufacturing set up Plant-2 in Chakan, Pune, Maharashtra including the latest machineries & technology with an in-house powder coating setup.

Heavy Duty Storage Racks

Selective Pallet Racking / High Rise Storage system

Commonly known as adjustable pallet racking. Its an ideal storage system for warehouses. This system provides direct access to every pallet & material handling equipment such as stackers, forklifts.

Long Shelving Racks

Long Shelving or Heavy Duty Racks are designed for storing medium & heavy goods. It is ideal for manual as well as MHE operations. Heavy Duty Racks make excellent use of the warehouse height. The higher items can be accessed through MHE. There are a number of combinations to cover the warehouse needs. A wide range of accessories available make it the most customizable shelving unit available.

Heavy Duty Storage Racks

Double Deep Pallet Racking

These too are adjustable pallet racking. The racks can be assembled in a double-depth rack configuration for high storage density or also can be used singly for basic storage needs.

Roll Storage Rack

Roll Storage Racks are designed after keeping in mind the need of fabric Roll storage. Its heavy structure ensures efficient storage of Rolls which can be retrieved easily. These special racks are the expertise of RECO.

Oil Drum Storage Racks

These racks are specially designed for the Storage of Drums / Barrels. They are spillproof & designed for heavy load. They can be easily accessed through MHE or manually. They are enough sturdy to hold drums vertically as well as horizontally.

Cable Drum Storage Rack

Conveyor Racking Systems are custom designed to meet the specific demands of customers. They ensure efficient flow of material.

Heavy Duty Storage Racks

Drive In-Drive Thru Racking

Drive-In/Drive-Through pallet racking systems are a cost-effective solution to high-density storage. The design criteria must be considered before deciding whether it is best suited for warehouse needs. Drive-In/Drive-Through Racks offer the ability to store a large amount of similar loads in a smaller area. Selectivity is sacrificed, but storage density is enhanced since many pallets are stored and are available through a single pallet position.

Conveyor Racking

Conveyor Racking Systems are custom designed to meet the specific demands of customers. They ensure efficient flow of material.

Coil Storage Rack

Medium Duty Shelving Rack

Medium Duty Racks are the best solution for a perfect warehouse and industrial application. These include automotive parts, hardware, parts, bulk retail. They can be configured according the storage requirement. They are also available with adjustable shelving system.

FIFO/Gravity Flow Storage Racks

We are leading Flow Rack manufacturers, where we produce First In First Out (FIFO) Racks. These Racks provide maximum utilisation of space & very efficient material storage. They are ideal for Food Industry & any other Industries to maintain FIFO. The Rollers provided are very sturdy with higher holding capacities.

Drawer Type Mold Storage Rack

Drawer Type Mold Storage Rack / Roll Out Storage Rack

In order to fulfill the ever changing demands of our customers, Reco is engaged in providing Drawer type Mould Storage Racks. They are specially suitable to store heavy moulds & retrieve them efficiently. They are made up of heavy grade material and have push pull technology. These are extremely preferred by warehouses and industries for their simple, safe storage.

Pattern/Fixture Storage Racks
