SPACE CREATORS

STORAGE SOLUTIONS PROVIDER
SINCE 2004

SLOTTED ANGLE STORAGE RACKS

Slotted Angle Storage Racks are extensively used in manual storage of light as well as relatively heavy storage system. These racks are totally dis-mountable and can be altered in height as well as in required dimensions.

They are made through highly sophisticated engineering processes and are made using mild, HR and CR steel.

These racks are widely used in storage, showrooms, godowns, storage units, lofts in industrial sites and factories.

As per the customer requirement these racks are manufactured with vertical partitions, side cladding, pigeon hole, etc.
