ROLLOUT SHEET STORAGE RACKS

Roll Out Sheet Racks optimize both floor and vertical space, increase efficiency, and facilitate a safe work environment. Materials removed from floor space and stored in Roll Out Sheet Racks are rapidly and easily accessible. The floor space is liberated for productive uses like traffic and workspace.

Main Features:

- Easy to add or remove drawers
- Rear loading is standard on all models
- Exceptional storage, up to 9 drawers in a single rack
- Standard height is 3000 mm
- Opens 100% for full access
- Lock-in, lock-out on every drawer
- High-quality, durable powder-coat paint

Operations: Manual

- Push & Pull type
- Mechanical drive (Rack & Pinion Mechanism)

Structure:

- Fixed Structure without Door arrangement
- Structure with Door arrangement. (Closed Type)
